

REMARKS

Claims 1, 3, 5, 13-18, 22 and 39-152 have been amended. The specification also has been amended to comply with the sequence rules. No new matter has been added by virtue of the amendments; support therefor being found throughout the specification and in the original claims of the application. Additionally, the within amendment is presented in large part, to correct an inadvertent mis-numbering of the claims as originally filed. Several other amendments are presented to reflect sequence identifiers where appropriate both in the claims and the specification. The remaining claim amendments are presented to remove improper multiple dependencies, correct minor informalities and generally to conform the claim set to U.S. patent practice.

Early examination and allowance of the application are earnestly solicited.

Respectfully submitted,

Christine C. O'Day (Reg. 38,256)
